

POLYPERF PORT NEEDLES-Safety, Positive pressure and CT

PEROUSE MEDICAL have developed a full range of needles. There are **safety** needles to protect the health workers. The **positive pressure** needle ensure that there is no reflux into the tip of the catheter, decreasing the chance of occlusion. There are also high pressure needles for use in **CT** with high pressure injection for CT and MRI. Extensive range available.

Product code	PPS Flow
702009	G20 x 20 mm
702509	G20 x 25mm
701709	G20x 17mm
702007	G22 x 20mm
702011	G19 x 20mm

Product code	PPS CT
802007	G22 x 20mm
801709	G20 x 17mm
802009	G20 x 20mm
802509	G20 x 25mm
802011	G19 x 20mm

PPS FLOW is the **ONLY** port needle on the market that can give single-handed automatic positive pressure significantly decreasing the occlusion rate
